

Name: Angela_____

Mini Blue Sky Project Pitch

Big Idea:

How does this idea relate to "Star Wars"? In other words, what big topic does this connect to (art? culture? science?). Explain.

My topic connects to culture. My topic is fashion and the outfits the characters would wear in the movies.

Driving question:

What are you trying to answer with this project? What do you want to learn?

I want to learn the style of the character's clothing, the history behind how people made the costumes, and what resources people used to make the costumes.

Challenge:

What new skills will you be developing in this project? What skills will you be improving on?

I will probably be improving on my sewing skill.

What do I already know about my driving question and my challenge?

I know some of the things I will have to do to get my fabric and sewing tools.

What research am I going to need to do to complete?

Learn a bit more about sewing, the costumes in the Star Wars movie, and I'll research more about fabrics and the colour wheel.

What resources do I have access to? (i.e. expertise, materials)

I have access to my mom's sewing kit and

Name: Angela_____

What resources will I need to find? (i.e. expertise and materials)

A sewing kit and fabric.

Timeline for completion (What do I plan to complete and achieve each week?):

Week 1 (November 16-20)

I plan to finish all my research.

Week 2 (November 23-27)

I plan on knowing the plan to make my costume and I plan on having all my materials ready.

Week 3 (November 30-December 4)

I plan on finishing the headpiece.

You will be presenting your project with a group of other students who have completed work that is related to yours in a gala exhibition night in December. What ideas do you have for how your project might be exhibited? Give a couple of different ideas.

I will probably have the headpiece next to a sheet of paper with my information written on it and I will also be able to answer questions.

PLP Teacher Signatures:
(you need all three)
