

Elements fill-in-the-blank story

Instructions:

Replace the element symbols with elements names.

Try to do these from memory.

Use your periodic table when necessary.

Driving along with a (Fm) _____ grip on the wheel of his car, a (Ag) _____ (Hg) _____ with (Cr) _____ wheels and (Fe-Ni-Mn-C) _____-belted (Ra) _____ tires, he was on his way to southern (Cf) _____. On the way, he had to pull into a gas station in (Bk) _____ where he bought twenty (Ga) _____s of (Pb) _____-free gas for a (Ni) _____. Just as he pulled out of the station, along came a (Eu) _____ in his little (Ge) _____-made car, driving on the wrong side of the (Rh) _____. They crashed! The poor fellow hit his (Ne) _____ the dash and bit his (W) _____. As he lay there, a (Si) _____ came along and stole his (Au) _____ watch and left him there to (S) _____. Then, along came an (As) _____ who set fire to his car. Finally a good (Sm) _____ came along and tried to (He) _____, but, alas, all he could do was (Ba) _____ in a (Kr) _____ the hill nearby.

Elements fill-in-the-blank story

Driving along with a (Fm) *Fermium* grip on the wheel of his car, a (Ag) *Silver* (Hg) *Mercury* with (Cr) *Chromium* wheels and (Fe-Ni-Mn-C) *Steel*-belted (Ra) *Radium* tires, he was on his way to southern (Cf) *Californium*. On the way, he had to pull into a gas station in (Bk) *Berkelium* where he bought twenty (Ga) *Gallium* s of (Pb) *Lead*-free gas for a (Ni) *Nickel*. Just as he pulled out of the station, along came a (Eu) *Europium* in his little (Ge) *Germanium* - made car, driving on the wrong side of the (Rh) *Rhodium*. They crashed! The poor fellow hit his (Ne) *Neon* the dash and bit his (W) *Tungsten*. As he lay there, a (Si) *Silicon* came along and stole his (Au) *Gold* watch and left him there to (S) *Sulphur*. Then, along came an (As) *Arsenic* who set fire to his car. Finally a good (Sm) *Samarium* came along and tried to (He) *Helium*, but, alas, all he could do was (Ba) *Barium* in a (Kr) *Krypton* the hill nearby.
