

Anarchy

a) Where it can (or has) be found?

Somalia is the only country in the world where there is no government as of right now.

b) Who is (or was) in charge?

Anarchism is defined as a nation without a government. In this case, no one would be in charge. Because of this, lots of people may rise up to assume power but in the long run, anarchism is NOT a sustainable way to live or run a country.

c) How does (did) it work?

Anarchy is a structure in which a country believes that having a government is harmful to the country and everyone would be better off living the same way our ancient ancestors did in which people would just live in communities or cities.

No public spending

Kidnaping

Market forces: Somalia is a pure free market

No taxes to be made

No punishment for crimes

Everyone is equal: no social hierarchy

d) What is (was) one positive and one negative of this system?

Positive: Anarchy allows you to have complete freedom where you can do whatever you want.

Negative: crime rates are a lot higher. Piracy is very common job for young men
