

**Intro:**

In fair Vancouver where we lay our story  
Live two families who strive for glory  
Two families in complete competition  
Capulet and Montague, opposition is their mission  
Fights bring turbulence to the poor land  
The mayor now says that fighting is banned.

In our first scene, you meet Romeo and a friend  
But it is a sad day, for Romeo at love's end  
For he loves a woman, Her name is Rosaline  
But she doesn't love him back, and for that we hear him whine  
Our two favourite MONTAGUES are headed to a to a party  
depressed Romeo will drink till he's hearty  
Such a fete, but hosted by the dreaded CAPULET!

**Romeo and Juliet 2020 // Queen Mab Scene (1.4.35-120)**

R: Mercutio, you and I both know we have good intentions for coming to this party, but we are idiots to think that the Capulets... who want to kill us, will see it the same way.

M: Well, I'm sorry Romeo, but you're a bit late with that realization! We're almost there, but there's no way they'll realize you're a Montague. What's really making you back out?

R: Well there was this theory I read on the internet earlier, it was so creepy, cause it was so true.

M: You know what? I heard a pretty good theory too.

R: Oh what did you hear?

M: That conspirators are as faulty as their theories.

R: Faulty? They doubt the things that have been integrated into us, to realise new truths about our world. After all, flat earth was normal at one point.

Ohhh, I see what you're saying!... the CIA has been brainwashing you!... or I suppose they haven't, because YOU are aware of it.

*//shakes head and laughs at romeo*

*//drops into crouch and gets enthusiastic, making fun of romeo*

They watch us through hidden cameras no bigger than the diamond on the ring on your mother's ring finger. In fact 99 percent of diamond rings have solar powered cameras in them. Cameras are everywhere, on drones, in vents, in the cracks in the pavement, traffic lights, public toilets... you know, the one's that flush on their own, with the "motion sensor"*//exaggerated air quotations*

*//short pause for intent*

But they dont just watch us, they also control the wills of the majority of the population. They influence our minds and decisions till our free will is what they want it to be. They use the knowledge they collect from the cameras to manipulate us with the media that they own. Facebook, Twitter, Snapchat, Instagram, Youtube, even pinterest! They own it all, control and manipulate it all, so that they can own, control, and manipulate us! Stop looking at me like that, it's true! Media tells us what we know, and how we feel about it!

These devilish, corporate minds run our minds, what's good, bad, right, wrong, normal, all subject to what they want. Man, I'm telling you now, and I'll only say it once... be careful what you say out loud. It's dangerous, I am risking my safety by telling you this. Keep your eyes open, and your ear to the ground. Pretty soon you'll notice them following you.

Romeo; OKAYYY! I think that's enough conspiracies for one day, or 10.

*//shakes head*

You talk of nothing.

Mercutio; true, I talk of conspiracies

Which are made by idle and desperate minds

Conspiracies are as insubstantial as popcorn

R: well maybe there will be some actual popcorn at the party, if we get there before it's all gone.

Come on man, you've made us late.
