

Exponents

What did I learn

I lend what it means if there negative or positive

I also learn how to solve negative

I Lend the order of operations

Like braces then exponents then multplcshon and diveshon the adding and subtracting

How to add up a math sentence with exponents

How did I learn

I listen to mr gross

Making the card game helped me understand exponents more.

For things I didn't understand I looked them up on kind academic

How can I use it

I can use it in higher math in school

Question I still have

How can I use this in the real world
