

First and Last Name: _____

Date: _____

Lab Safety

You will usually find a set of 'Lab Safety Rules' in a Science lab.

They are there for *your* safety!

The drawing below shows a lab where there are no safety rules.

YOUR TASK:

Indicate on this diagram, using numbers, all the places where things are going wrong, and where lab activities are being carried out inappropriately and/or in an unsafe manner.

First and Last Name: _____
Date: _____

Lab Safety

FOLLOW UP ACTIVITY:

For each of the numbers you have labeled on the diagram, write a Lab Safety Rule that indicates the right way to act in this situation.

Hazard #	A Lab safety rule indicating the correct way to act in this situation.
