HE SCRUNCHED UP HIS FACE TRYING TO
PREVENT THE MEGA-SNEEZE...

TO NO AVAIL... HE LET OUT A TREMENDOUS SNEEZE! *

KA-CHOOOOOOOOO!!!!

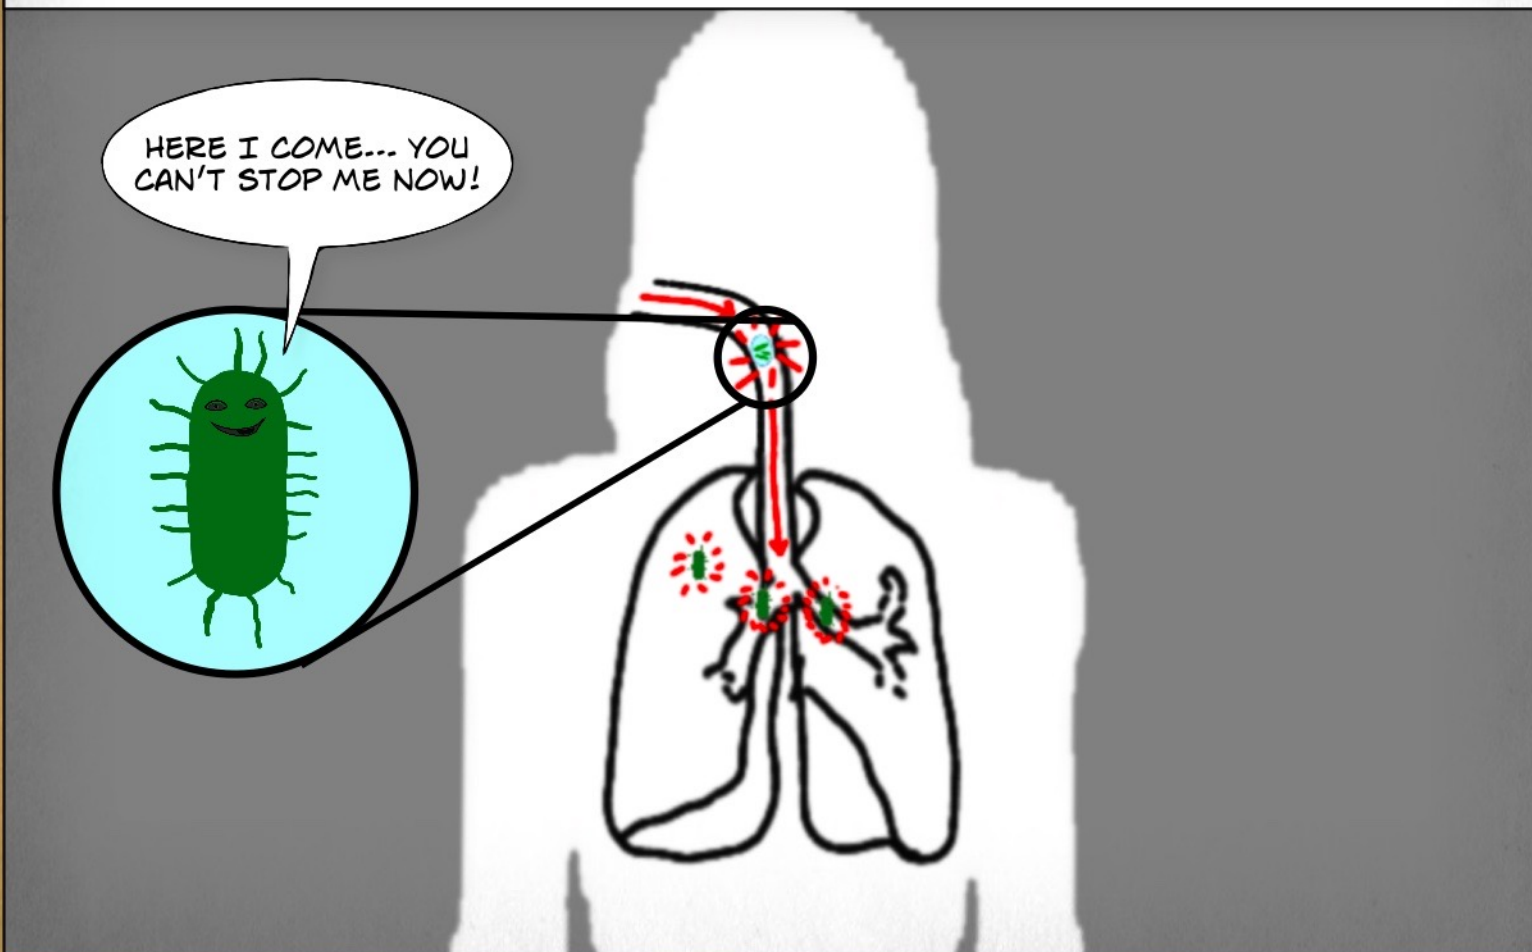

*BACTERIA IN SNEEZE ARE PORTRAYED MUCH LARGER THEN ACTUAL SIZE FOR DRAMATIC EFFECT.

KATIE GASPED IN SHOCK AT THE SUDDEN SNEEZE WHICH HAD BEEN RELEASED STRAIGHT INTO HER FACE, AND WHILE DOING SO UNKNOWINGLY SUCKED IN A POTENTIALLY DEADLY BACTERIA...

THE BACTERIA CACKLED EVILLY AS IT WAS SUCKED DOWN INTO KATIE'S LUNGS.

ONE OF OFFICER JOE'S COLLEAGUES SPOTTED THE NEW ARRIVAL.

GASP!

HE QUICKLY IDENTIFIED IT.

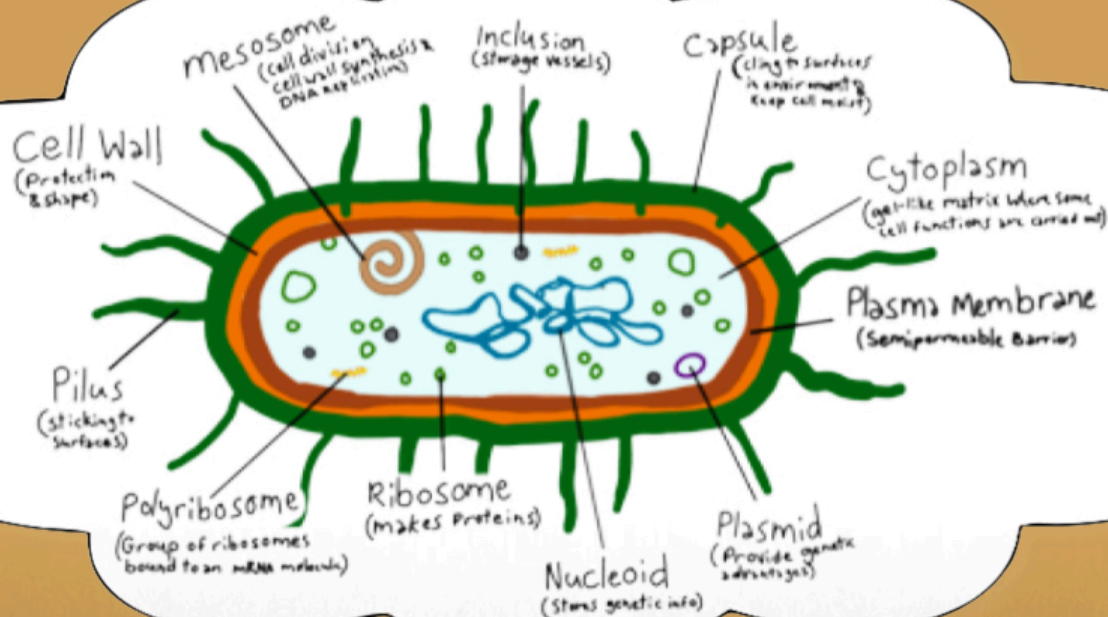

IT'S A
MYCOBACTERIUM
TUBERCULOSIS
BACTERIA!

LISTED IN THE
TOP 10 MOST DEADLY
DISEASES

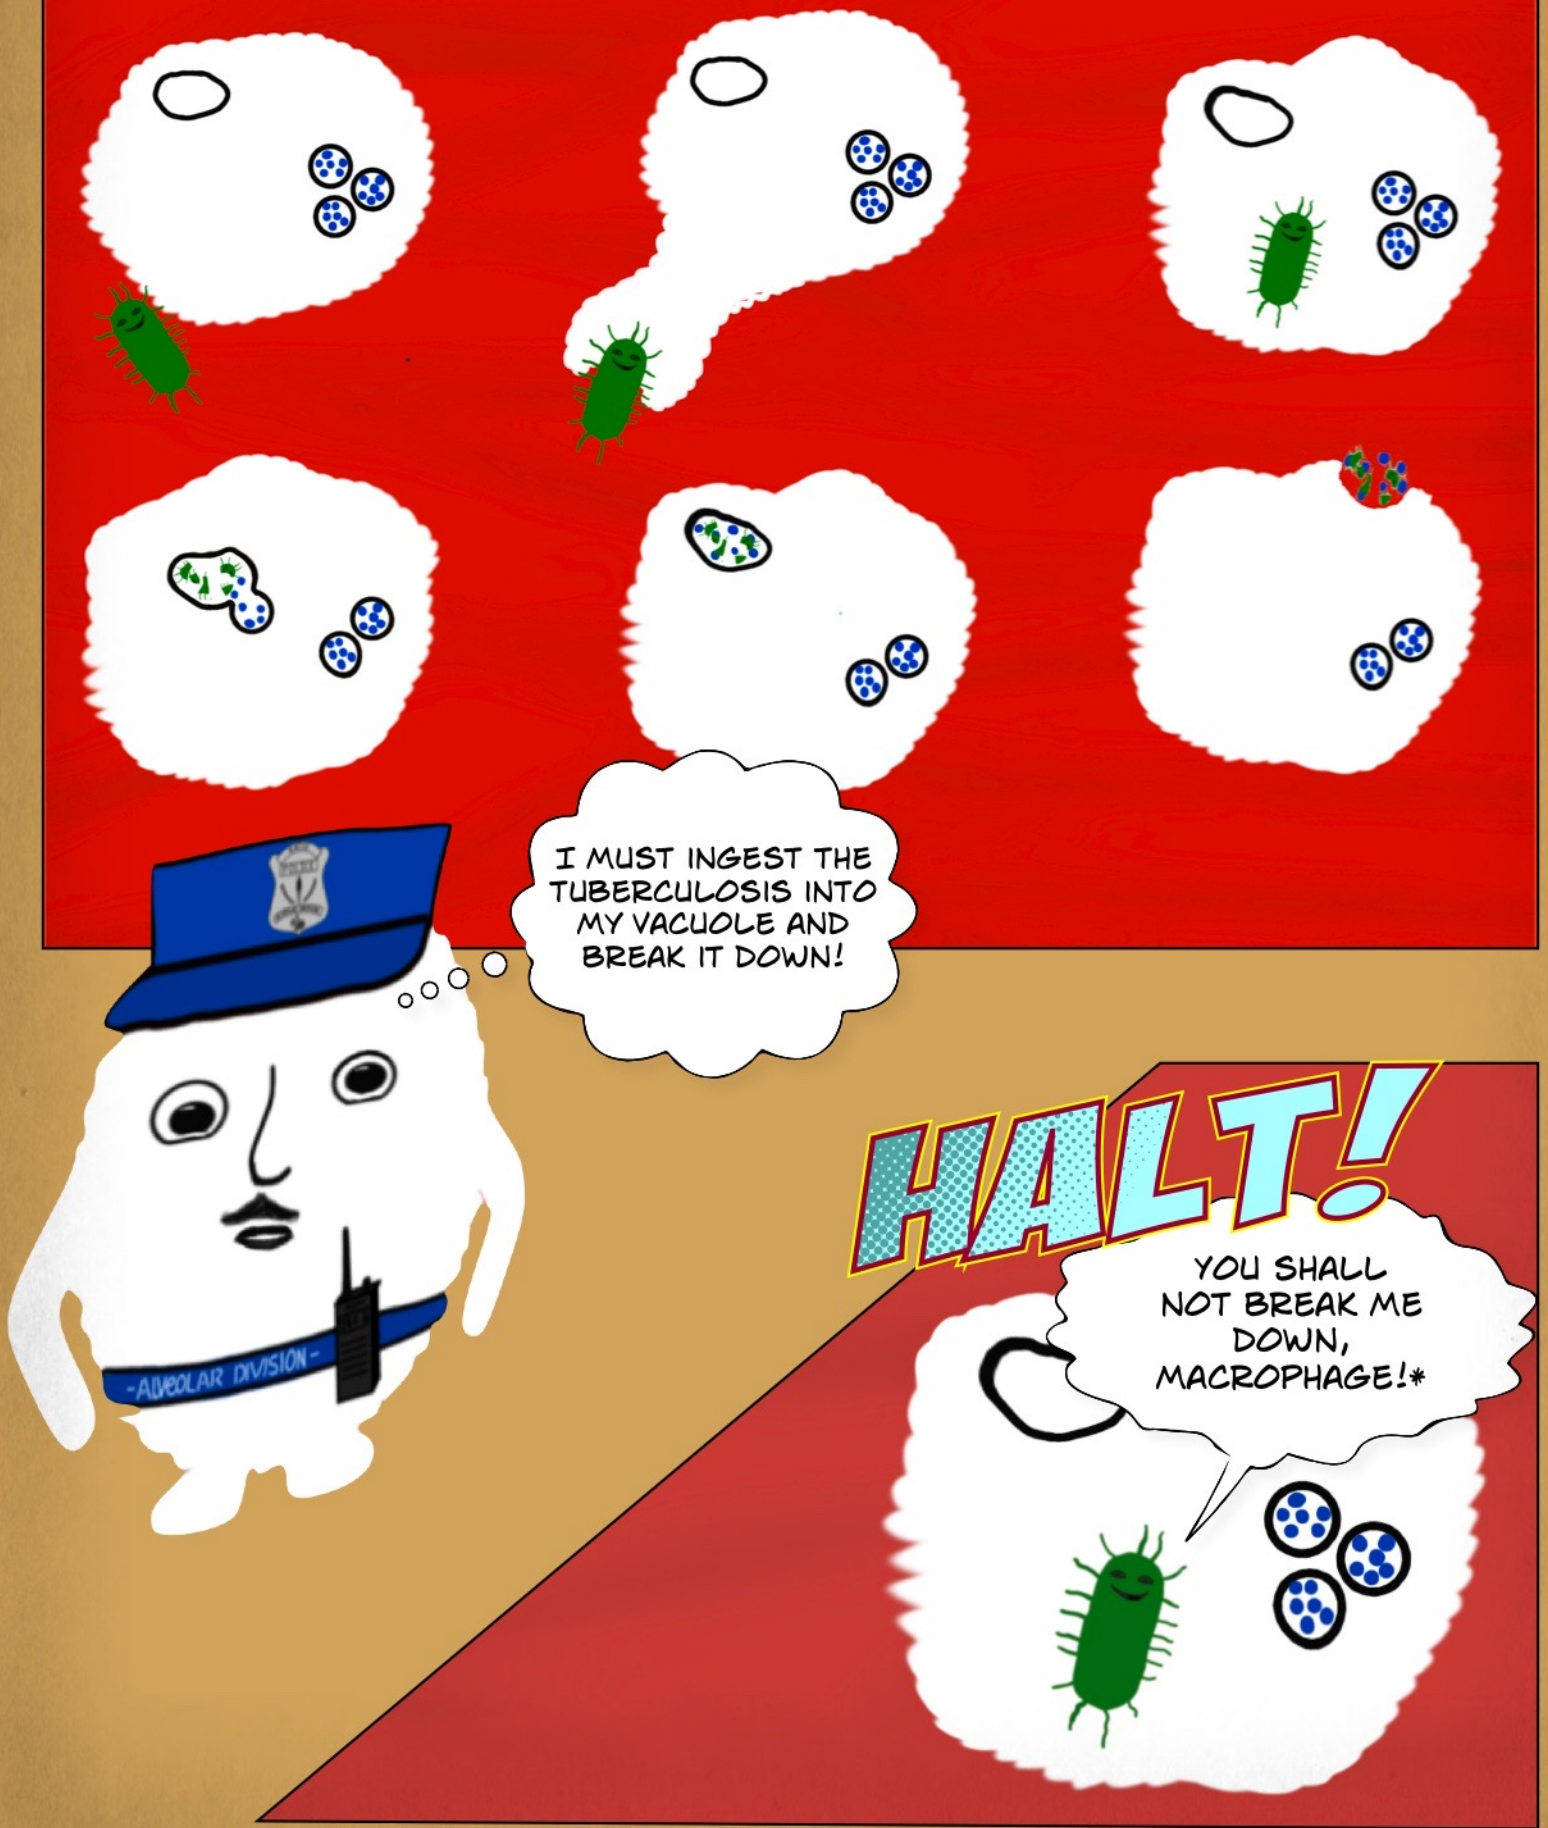

KILLS MILLIONS YEARLY

SYMPTOMS:

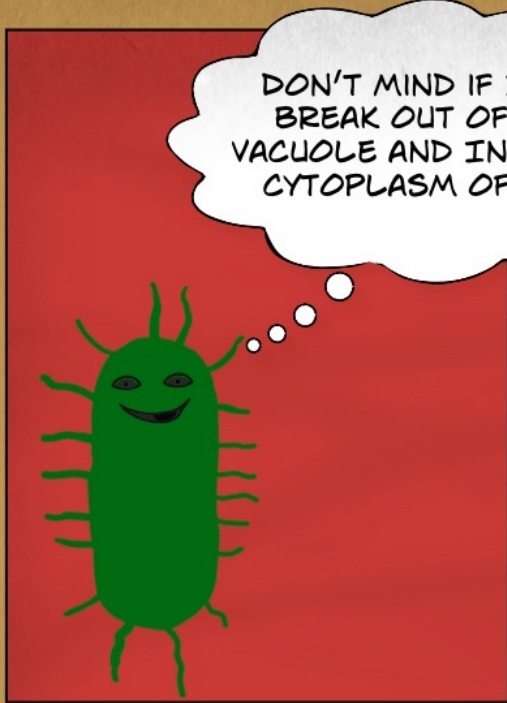

- A COUGH (CONTAINING BLOOD AND MUCUS) THAT LASTS MORE THAN THREE WEEKS.
- LOSS OF APPETITE AND UNINTENTIONAL WEIGHT LOSS.
- FEVER.
- CHILLS.
- NIGHT SWEATS.

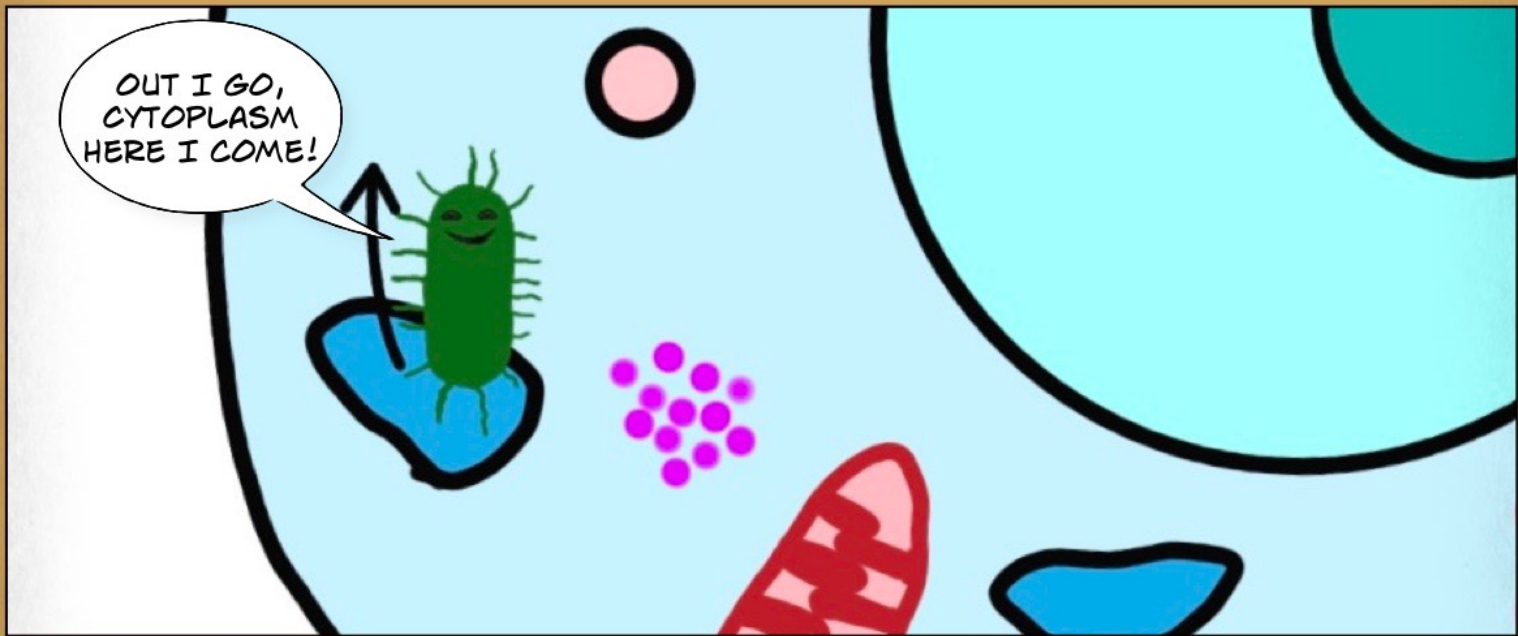

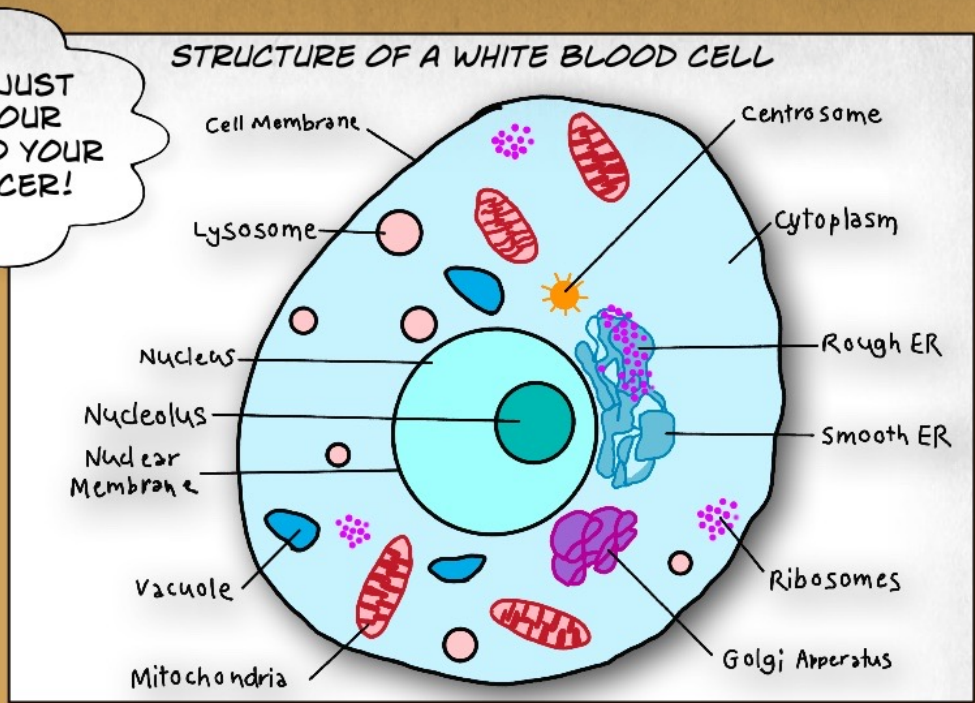

THE INGESTION PROCESS.

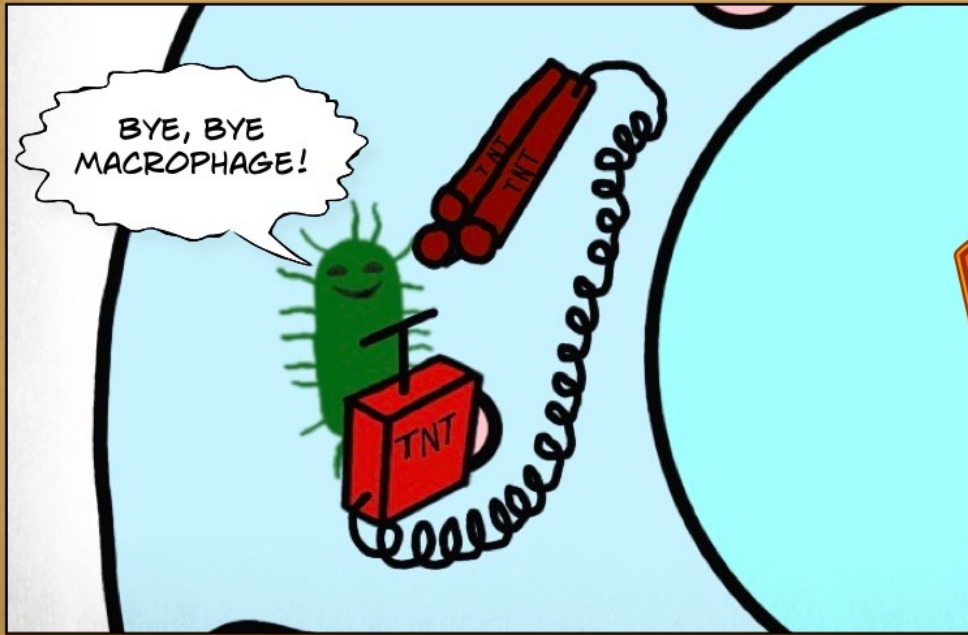

*MACROPHAGE IS A TYPE OF WHITE BLOOD CELL

DON'T MIND IF I JUST
BREAK OUT OF YOUR
VACUOLE AND INTO YOUR
CYTOPLASM OFFICER!

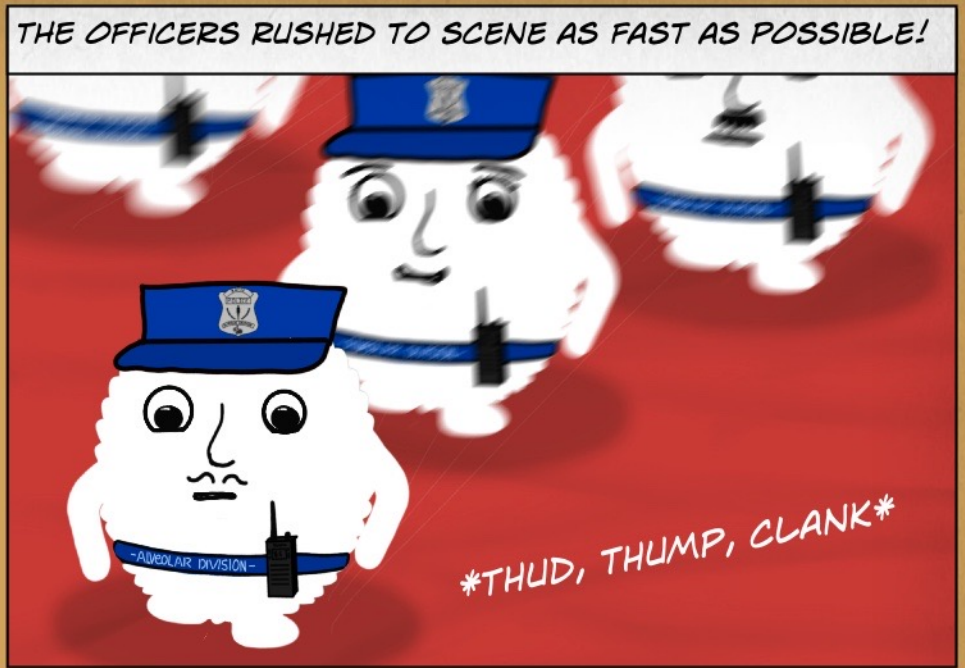

OUT I GO,
CYTOPLASM
HERE I COME!

BYE, BYE
MACROPHAGE!

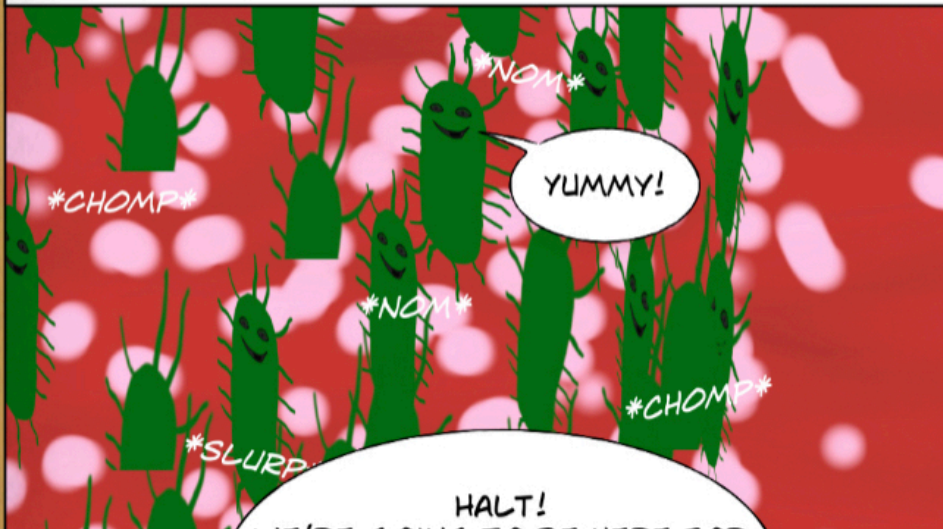

THE TUBERCULOSIS BACTERIA FINALLY MANNGE TO OVERRIDE KATIE'S IMMUNE SYSTEM.

THE EVIL TUBERCULOSIS BACTERIA BEGAN FEASTING ON KATIE'S BODILY TISSUES.

THE BACTERIA THEN ENTERED THE BLOOD STREAM.

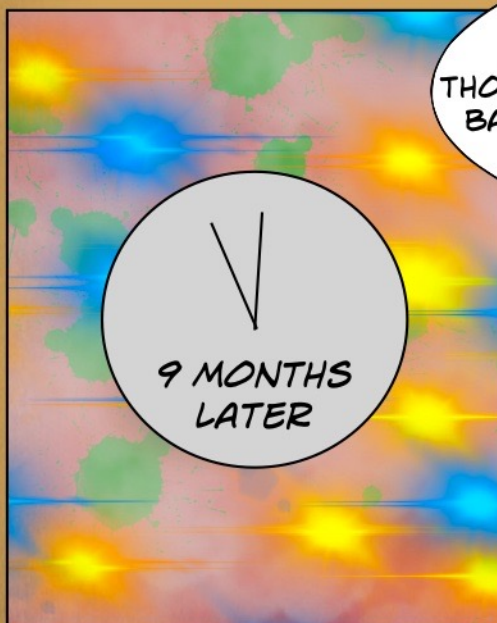

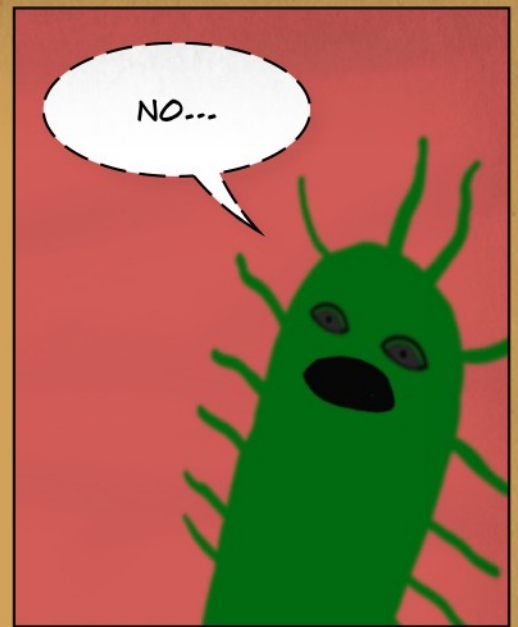

HALT!
WE'RE GOING TO BE HERE FOR
THE NEXT 9 MONTHS AND YOU
WILL ALL PERISH BY THE TIME
OUR WORK HERE IS DONE.

KATIE FELT THE SYMPTOMS,
AND AFTER VISITING HER
DOCTOR SHE WAS GIVEN
FOUR ANTIBIOTICS TO TAKE.

TODAY, I AM PLEASED
TO ANNOUNCE, THAT WITH THE
ASSISTANCE OF ANTIBIOTIC, EVEN
THOUGH WE LOST MANY GOOD, INNOCENT
BACTERIA, WE HAVE SAVED KATIE FROM
THE TUBERCULOSIS BACTERIA!
