## Key Ideas

Use tripod  
Angles  
Shoot B-roll  
shoot before & after  
Adjust focus  
orientation  
Consider sound

## Notes

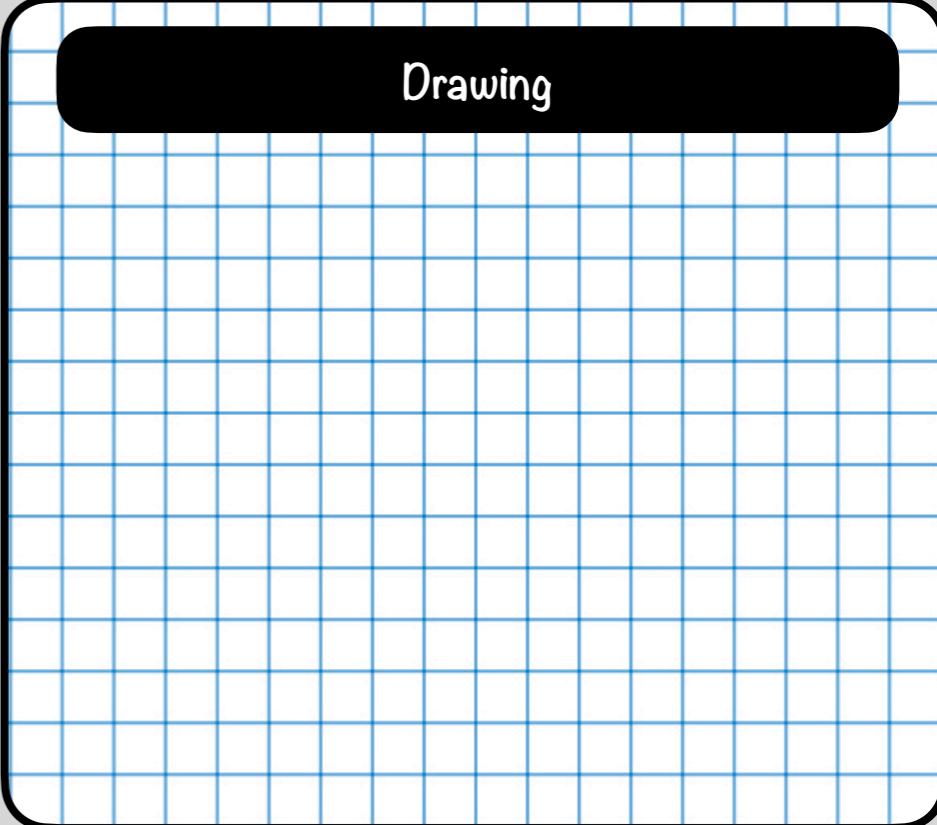

Eliminates shaking  
Records  
clips for voiceover, cutaway  
Don't cut film short  
Focus & exposure  
consistent orientation

Cut  
Fade  
Dissolve  
Wipe  
Flashback  
Shot-reverse-shot  
Cross cuts  
eye line match

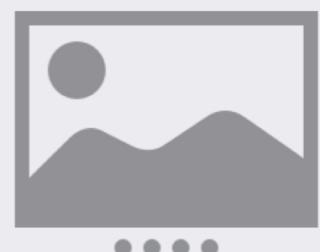

Two pieces of video spliced together  
in or out of black on white  
one video slowly replaces another  
one shot pushes another off screen  
previous action  
alternating between two subjects  
cuts between simultaneous action  
cut to object then to person

Digital effects  
make viewer see something that isn't  
real i.e.: fulling of a face, ledge
