## The book of the lion: literacy plan

### 1. Do you consider yourself *quick reader* or *slow close reader*?

I consider myself a quick reader. I consider myself a quick reader because in the past I've read books really fast. In elementary school my class had a lot of reading challenges and I was always fairly fast. Depending on the size of the book and how interested I am, I could read a book in about 3-4 days. I might be a bit slower now, but I'm still very fast.

### 2. What *types of books* have you enjoyed reading in the past?

I have enjoyed action and adventure books in the past. I used to read a lot of Percy Jackson and Harry Potter types of books. I also read a lot of mystery and fantasy books. There have been some books in the past that I have had to read that were really slow and I struggled to read those because I really like action.

### 3. What *time of day* will you read your book?

I will read my book after school. After school is usually the time that I do all of my schoolwork, so I think I will read first then do my homework. It's definitely the most perfect time I can think of.

### 4. How *long* will you read for?

It usually takes me about 6-8 minutes to read a chapter, but I know that not all chapters are the same length. So I will read for 20 minutes and save 20 minutes to read, just in case the chapters get really long.

### 5. How will you *remind* yourself to read?

I will put a reminder in things everyday, to read for 20 minutes. That way it will pop up every time I check things, and I can see that I have to read. I will also put it in reminders and it will pop up on my lock screen as well.

### 6. What *techniques (at least 3)* will you use to comprehend what you are reading?

I will use the note taking technique (so that I can remember important things), another technique I will use will be the Routine technique (so that I can have a schedule and read at the same time everyday. The last technique I will use will be read aloud,(because it helps me think about what's happening.

### 7. Who is your *accountability* partner?

My accountability partner will be my dad. He would be a good one because he's always there and he would be a good one.
