<p><b>Main Image:</b></p> <p>What is the main image you will be using to place yourself in?</p>		<p><a href="https://artsandculture.google.com/partner/museu-episcopal-de-vic">https://artsandculture.google.com/partner/museu-episcopal-de-vic</a></p>	<p>God is the best thing. If you don't believe in him, you must die. If you are in the military there is a spot for you in heaven. There are soldiers in this painting. The Holy Women are the most important people next to the king and the Pope. There might be an owl above Jesus. Symbolism in medieval art is important so they can tell a story. Most people couldn't read. This is like a story book for regular people.</p>	<p>I was baptized Catholic but I don't go to church anymore. I only went to a Protestant church with my Mom. It connects to my worldview because I try to imagine things happening in front of me. All of this probably happened but not in the same room. I don't really follow religion because I don't want to have to follow a book to tell me how to live my life.</p>
<p><b>Geography:</b></p> <p>What role do geographical factors such as climate and location play in how people look at the world and behave in it?o I'm</p>		<p><a href="https://artsandculture.google.com/asset/altarpiece-of-saint-vincent-perot-gasc%C3%B3/WAFR3-sZC-oL3g">https://artsandculture.google.com/asset/altarpiece-of-saint-vincent-perot-gasc%C3%B3/WAFR3-sZC-oL3g</a></p>	<p>They believed the earth was flat but bumpy. I chose this art because it shows hills, and rivers and cliffs. The earth would protect you if you had good faith. Saint Vincent had good faith because he refused to renounce his faith. The crow protected him and the ocean brought his body back to shore so he could be buried properly.</p>	<p>The forest gives us protection from the weather, hot sun and heavy rain. Without the land there would be no life. You're safe and protected in the wild if you think carefully and plan. There are things in the forest that can really hurt you. I take bear bells and a flashlight when I am walking the dog.</p>

<b>Time:</b>  In what terms is time viewed by a society (mechanical, like clocks, or natural, like the sun)?		<a href="https://www.thehistoryofart.org/giorgione/three-ages-of-man/">https:// www.thehistoryofart. org/giorgione/three- ages-of-man/</a>	Time can be shown in art by different ages or generations of humans.	How I view time is, you should never waste a single second. Time is money. Wasting time is a bad idea, you will never have anything exciting happen in your life and nothing to show at the end.

<p><b>Society:</b></p> <p>What roles are available to individuals in society? Who holds power and how is power maintained? Who has status and how do they get it? Are certain benefits available to some and not to others?</p>		<p><a href="https://www.wikiwand.com/en/states_of_the_realm">https://www.wikiwand.com/en/states_of_the_realm</a></p>	<p>The Pope holds pretty much all of the power because he is the one who God speaks to. The King has power through fear. On the bottom are the peasants.</p>	<p>The people that are elected are in power. Being smart, intuiting people and then following through. Money and greed keep the rich in power and the poor even poorer. Nothing has really changed.</p>

<p><b>Values:</b></p> <p>How do people in a society act toward each other? How do people in a society act toward people in other societies and groups?</p>		<p><a href="https://www.versobooks.com/en-ca/blogs/news/4105-marxism-and-the-middle-ages">https://www.versobooks.com/en-ca/blogs/news/4105-marxism-and-the-middle-ages</a></p>	<p>People believed if you weren't wealthy or a man you weren't worth anything. All you were good for was working the fields. They had them work the fields to make the wealthy wealthier. It was all greed.</p>	<p>In modern day the rich get richer and the poor get poorer. All the different laws have loopholes that the rich people can avoid paying taxes.</p>

<p><b>Beliefs:</b></p> <p>What beliefs do people hold about life and death? About their environment ?</p>		<p><a href="https://www.medievalchronicles.com/medieval-art/">https://www.medievalchronicles.com/medieval-art/</a></p>	<p>People believed they if they did something for their king they would go to heaven. They believed that Jesus was their saviour and kings were holy.</p>	<p>I used to consider myself Christian but I don't anymore. I was baptized but I don't believe in the stories or God but I do believe there is heaven.</p>

<b>Economy:</b>  Who controls		<a href="https://fee.org/articles/how-medieval-towns-paved-the-way-for-capitalism/">https://fee.org/articles/how-medieval-towns-paved-the-way-for-capitalism/</a>	<p>I chose this painting because the economy looked like the painting. There was a lot of trading rather than currency. What currency there was, was really rare.</p>	<p>Personally, I think we should go back to gold coins and trading. You can't scam through the internet. Paper money is worthless. It is only worth something because people decided that the paper was worth something.</p>

<b>Knowledge:</b>  How do people develop knowledge? What ways of knowing are accepted? Who has access to knowledge? How is it valued? Where or in whom does the knowledge reside?		<a href="https://aeon.co/essays/women-were-the-unseen-healthcare-providers-of-the-middle-ages">https://aeon.co/essays/women-were-the-unseen-healthcare-providers-of-the-middle-ages</a>	<p>The reason I chose the painting was because the knowledge they had in the medical field back then was horrible. They did crazy things because they didn't know about the body. Only the king's and the pope could read. No one else. People can't really form their own opinions because they can't read or write. They have to trust the pope and the king. That is not a good idea because they could lie to keep power and for people to be afraid of them.</p>	<p>I believe that most of the world's government is corrupt. The people at the top have the knowledge and the people below don't.</p>
