of Toronto.

Gwenyth - What apps do you use to create your art or graphic designs?

Susan - How do you incorporate shapes into your designs?

Naomi - What is the hardest part of graphic design?

Hanna - What is the favourite part of your job?

Keaton - What is your favourite tool to use?

realized that's what she loved and wanted to do.

Wanted to get masters in design and was accepted into a school in NYC. She stayed there.

Uses procreate and Adobe.

Design is about problem solving. A simple way to solve a problem is by starting with simple shapes and building on that.

Hardest part is when the client doesn't know what they want.

Favourite part of job is when she gets to illustrate and draw.

In procreate has lots of special tools that she likes (especially the ones that are either 3d or spray paint

Usually starts with the iPad and not with pen and paper.

### Reflection:

Looking at your K-W-L Chart, what is something that you taking away from this Guest Speaker session? They were brought in to help you with your current project. How will this persons words help you with your current project?

Chloe Devine was brought with is to tell us about the graphic design industry as well as herself. We learned about how she went to school at Seycove, got her fine arts degree in Toronto, and then opened a food truck. From there she decided to go into design and moved to NYC. We learned that the best apps to use are Procreate and Adobe. We learned about how she uses some of the apps and how she works with a client. We watched a video of her designing something and learned about her clients. From this I am able to develop a better understanding of how art and design is used in the real world.
